

Clark Replies.

Editor Tallahasseean.—Noticing in the Weekly TALLAHASSEEAN, in its issue of Thursday, September 6th, an editorial article under the caption of "Clark's Assessments," which is misleading and evidently intended to injure the Democratic State Executive Committee in its work, I desire space for some reference to it. I, perhaps, would not notice this article were it not for the fact that similar statements have been going the rounds of the press and they are calculated to deceive the people.

The article in question, as published in the TALLAHASSEEAN, says "Chairman Frank Clark, of the State Democratic Executive Committee, has issued a notice to the candidates in which he absolutely circumvents the possibility of a poor man becoming a candidate for a State office at the November primary. He taxes candidates for State Chemist, \$200.00; for Adjutant-General, \$50.00 each; for States Attorney, \$100.00 each. This is alleged to be necessary to raise \$10,000.00 for the campaign."

Now, in the first place, "Chairman Frank Clark" has not taxed anybody one cent. The Campaign Committee of the State Committee has assessed candidates as mentioned in the TALLAHASSEEAN's editorial. The people must understand that there are two campaigns being conducted at the

present time in Florida. The general election will occur on the 6th day of November next and the Campaign Committee is endeavoring to conduct that campaign. The expense of this campaign should be borne by the nominees of the late State Convention, Democratic office-holders and other Democrats in the State who desire to contribute to it. It is unnecessary for me to enumerate the enormous expenses incident to the management of a campaign of this character in all of its details, but I desire now to say to the people that after the election is over Hon. J. N. C. Stockton, Treasurer of the State Executive Committee, and into whose hands every dollar of this money goes and by whom every cent is paid out upon proper vouchers, will make a detailed statement for publication, which statement will show every cent contributed and by whom, every cent expended and for what purpose. I am speaking of the general campaign for the election of the nominees of the late State Convention. In this connection, without undertaking to make comparisons, but being justified in stating the facts, as I think I am, when the TALLAHASSEEAN, the home paper of Mr. Rawls, who was the former chairman, insinuates wrongdoing on the part of the present Committee, I desire to state emphatically that the present Committee has not asked nor received, nor will they ask or receive, one solitary cent from any railroad corporation in Florida or from the National Committee. have been informed, although no books have ever been turned over to us by the former Committee showing the facts, that the former Committee had received large contributions from both these sources. Large, powerful corporate interests do not contribute to political committees, in my judgment, unless they expect something in return. For that reason as long as I am Chairman of the State Democratic Executive Committee of Florida, I shall not ask or receive any contributions from sources of this character. If I understand my position, I am at the head of an organization whose mission is to subserve the best interests of the people of this country and when it ceases to have that for its object it will have "failure" written upon it and should cease its pretensions as a friend of the common people.

have been referring, called a primary election to be held on the 6th day of November, the same day of the general election, for certain purposes; those purposes were to permit the people to vote upon the location of the future seat of State government; to nominate such State officers as were to be appointed by the Governor, etc. This primary election is separate and apart from the general campaign and there is no way in the world that the money can be raised to pay the expenses of the primary election except by the assessment of those who expect to be candidates. The candidates entering the Capitol contest will pay five thousand dollars. The money expected to be raised from the assessment of the candidates for State Chemist, Adjutant General, State's Attorney, etc., will probably raise from six hundred to one thousand dollars more. This will give an aggregate of from five thousand six hundred to six thousand dollars to pay the entire expenses of the primary election in about six hundred and seventy election districts in Florida. A calculation has not been accurately made as yet but this amount of money will barely pay the expense of the primary election and there is no other sources from which we can raise one cent to meet it. The Campaign Committee, myself nor any other member of the Committee has ever said anything about raising ten thousand dollars for campaign purposes. We have sought, by calling upon the nominees of the State Convention, and other leading Demo-

An Extraordinary Island.

In the bay of Plenty, New Zealand, is one of the most extraordinary islands in the world. It is called White Island and consists mainly of sulphur mixed with gypsum and a few other minerals. Over the island, which is about three miles in circumference and which rises between 800 and 900 feet above the sea, floats continually an immense cloud of vapor attaining an elevation of 10,000 feet. In the center is a boiling lake of acid charged water covering 50 acres and surrounded with blowholes from which steam and sulphurous fumes are emitted with great force and noise. With care a boat can be navigated on the lake. The sulphur from White Island is very pure, but little effort has yet been made to procure it systematically.

Put Up the Price.

Senator Frye of Maine was once offered \$400 to write an article for a leading magazine, but refused, saying the figure was not large enough. "How much would you require?" asked the editor.

"Twenty thousand dollars," answered the senator, which, of course, put an end to the negotiations.

"And, you know," said Mr. Frye to a friend afterward, "I couldn't have written the article anyhow."

Mexican Theater Etiquette.

In a Mexican theater women always go bareheaded and the men wear their hats all the time the curtain is closed. During the performance they remove them.

Frequently men rise in their seats and sweep the tiers of boxes with large glasses. It is considered something of an honor to have the glasses of a swell below leveled at your box. Smoking is permitted in all theaters.—City of Mexico Correspondence.

Liquid Glue.

To produce liquid glue which will keep for years break pieces of glue and place in a bottle with some whisky, cork tightly and set aside for a few days. This should be ready for use without the application of heat, except in very cold weather, when the bottle should be placed in hot water for a few minutes before using the glue.

Hidden Beauty

In Egypt the custom is for Princesses to hide their beauty by covering the lower part of the face with a veil. In America the beauty of many of our women is hidden because of the weakness and sickness peculiar to the sex. If the Egyptian custom prevailed in this country, many sufferers would be glad to cover their premature wrinkles, their sunken cheeks, their unhealthy complexion, from the eyes of the world with the veil of the Orient.

DOCTORS AGREE.

Recent investigations by the authorities of several States have attracted attention to proprietary medicines, and there is a marked disposition to draw a sharp line of distinction between mysterious nostrums and worthy articles of scientific compound and known character.

"Many proprietary medicines," says a leading physician, "are the best possible prescriptions for the diseases which they are made to cure. It is certainly only reasonable to expect that chemists of world-wide reputation and unlimited resources ought to make compounds with exceptional skill, and it is manifestly to their interest to have their ingredients fresh and pure." Take, for example, Lippman's great remedy, popularly known as P. P. P. The formula is on every bottle. Every physician knows that the ingredients are the best possible remedies for purifying the blood, and the compound is a scientific one, which increases the efficiency of the whole. I sometimes prescribe special mixtures for Blood Poisoning, Scrofulous Affections, Catarrh, Eczema and other complaints arising from impure and weak blood, but I always feel safest in prescribing P. P. P., especially when I am not personally acquainted with the druggist. In prescribing P. P. P. (Lippman's Great Remedy), I know I am taking no chances.

When doctors feel such confidence in a standard remedy, it is no wonder that the general public insist upon having it.

P. P. P. is sold by all druggists. \$1 a bottle; six bottles, \$5.
